

Claims

1. The container for easy inspection, rapid opening and rapid closure, comprising:
a piece of material further including
5 at least one see-through pocket on a first side of said material piece;
 at least two fastening strips on said first side; and
 at least two fastening strips on a second side;
 wherein said first side and said second side are opposing sides of said material
piece.
10
2. The container of Claim 1, wherein said material piece is primarily composed of at
least one member of the collection comprising a cloth canvas, a nylon canvas, a heavy
plastic, a leather, a nylon, a canvas like material, and an insulating material.
- 15 3. The container of Claim 1, wherein said fastening strips of said first side and said
fastening strips of said second side are mating strips of a hook and loop type fastener.
4. The container of Claim 1, further comprising a belt attached to said second side.
- 20 5. The container of Claim 4, wherein said belt includes a belt anchor.
6. The container of Claim 4, wherein said belt is primarily composed of a member of
the collection including a cloth, a nylon, a leather, and a plastic.
- 25 7. The container of Claim 4, a hinge attached to said belt, and attached to said
material piece on said second side.
8. The container of Claim 4, further comprising at least one logo region on said belt.
- 30 9. The container of Claim 1, further comprising at least one logo region on at least
one member of the collection comprising said first side and said second side.

10. The container of Claim 1, further comprising a cushion region sandwiched between said first side and said second side.

5 11. The container of Claim 1, further comprising at least one drawstring attached to said material piece and traveling a material tube.

12. The container of Claim 11, further comprising a slide lock coupled to said drawstring.

10

13. A method of using a container made of a piece of material, comprising the steps of:

placing at least one object in a see-through pocket on a first side of said material piece to create a placed object in said see-through pocket;

15 creating said container with said placed object by attaching fastening strips on said first side and a second, opposing side;

opening the container by releasing said attached fastening strips; and
visually inspecting said placed object in said see-through pockets.

1 14. The method of Claim 13,
2 wherein the step creating said container is further comprised of the step of:
3 tightening a side lock on a drawstring attached to said material piece and traveling
4 through a material tube in said material piece; and
5 wherein the step opening said container is further comprised of the step of:
6 loosening said side lock on said drawstring.

7

1 15. A method of doing business, comprising the steps of:
2 a merchant providing said container to a customer, via a concession site, to create
3 a first revenue from said customer;
4 said concession site promoting said container to said customer for rapid opening
5 and rapid closure;

6 a concession site provider hosting a concession site to create a site revenue from
7 said merchant; wherein said site revenue from said merchant is based at least partly upon
8 the expectation of creating said first revenue for said merchant;

9 wherein said container includes

10 means for placing at least one object in a see-through pocket on a first side of said
11 material piece to create a placed object in said see-through pocket;

12 means for creating said container with said placed object by attaching fastening
13 strips on said first side and a second, opposing side;

14 means for opening the container by releasing said attached fastening strips.

15
1 16. Said first revenue and said site revenue as products of the process of Claim 15.

2
1 17. The method of Claim 15, further comprising the step of:

2 a second merchant servicing said container to create at least one logo on said
3 container for said customer, to create a second revenue from said customer.

4
1 18. The method of Claim 17, wherein said merchant is essentially the same as said
2 second merchant.

3
1 19. Said second revenue as a product of the process of Claim 18.

2
1 20. Said method of Claim 18, wherein said second merchant provides said logo on
2 said container using a second concession site;

3 the method further comprising the step of:

4 said concession site provider hosting said second concession site to create a
5 second of said site revenues from said second merchant; wherein said second site revenue
6 from said second merchant is based at least partly upon the expectation of creating said
7 second revenue by said second merchant.

1 21. The method of Claim 15, wherein said concession site includes a member of the
2 collection comprising a venue concession site, a transportation concession site, a
3 marketplace concession site, and a concession web site.

1 22. Said second revenue as a product of the process of Claim 21,
2 wherein said venue concession site is a member of the collection comprising a
3 stadium concession site, a theater concession site, and an arena concession site;

4 wherein said transportation concession site is a member of the collection
5 comprising a bus station concession site, a train station concession site, an airport
6 concession site, a ferry terminal concession site, a ferry concession site, a train
7 concession site, and an airplane concession site;

8 wherein said airplane concession site embodied as written material to said
9 customer; and

10 wherein said marketplace concession site is a member of the collection
11 comprising a farmers market concession site, a flea market concession site, an open air
12 market concession site, a merchant's collective concession site, and a commission based
13 retail concession site.

1 23. The container of Claim 1, further comprising an opening through which a head of
2 a user may pass so that the container may be worn as a poncho.

1 24. The container of Claim 1, further comprising a pocket on said material of said
2 container into which said material may be folded and stored.
